Do you know how to crate train? Yes ___ No ___

Do you know basic obedience techniques? Yes ___ No ___ If so, please describe some of the methods:

Fostering Cats (all foster cats must be indoors only)

The duration of fostering can range from 2 to 10 weeks depending on the age and condition of the animals. We require that once you make the commitment to foster that they remain in your care until they are ready to be returned to SCAC. Please check the level of foster you are willing to commit to:

Short (2-3wks)___ Med (3-5 wks)___ Long (5-10 wks)___

When fostering cats there are a number of options. We ordinarily foster out Queens and kittens, but occasionally we do have others that need foster care. Please check what options you are most comfortable with to help us best suit both your needs and our felines needs.

___ Mom with kittens Litter size of 1-4___ or 4-8___ Doesn't matter___

___ Two Moms with kittens Litter size ranges from 4-10

___ Orphaned Kittens Under 4 wks (may require bottle feeding)___ or over 4 wks___

If necessary are you willing to help socialize kittens? Yes___ No___

- Occasionally not all kittens will survive due to illness or injury. Are you prepared for this if the situation occurs?
- Fostering cats can be a dirty and time consuming job. Ensuring that litter boxes are frequently cleaned and sanitized, making special wet food, making sure food always available and that the environment they live in is clean and tidy at all times.
- Additionally, be aware that there is the risk you may be exposed to zoonotic diseases (transmissible from animals to humans).
