News from Second Chance Animal Center

What A Year!

Cathi Comar, Executive Director

This past year was an amazing year for Second Chance Animal Center. From ferrets to felines and dogs to dwarf rabbits, we expanded our shelter services and community programs in so many ways and directly touched the lives of over 1,600 companion animals! Here are some highlights from 2018.

At the end of 2017, we received a grant from the Reddus Foundation to develop and implement our STAY! Program for canines (Strategic Training After Your Adoption!). Our canine staff worked with our dog behaviorist to identify dogs who needed special training before, during, and after the adoption process. (Further into this issue you will read about Penny the hound, who participated in this program.) The goal is to set training in motion while a STAY! dog resides in the shelter, work with the dog's adopters to continue the training, and then work with the dog in its new home once they are settled. Our Return-to-Shelter figures decreased due to this program. STAY! was even featured on NBC Boston and NECN as an innovative shelter program!

Felines also benefitted from our work last year. Our Trap-Neuter-Return program continues to grow, and we worked with Shires Housing in Bennington to help maintain the community cats living around their properties. We even worked with a few farms to help control the cat overpopulation they experience around their operations. As usual, we keep as many friendly TNR felines as possible to find them forever homes. We also revised our protocol and care for cats who test positive for Feline Immunodeficiency Virus (FIV). Shelter-medicine research now shows that the quality of life and life span of an FIV+ cat is better and longer with proper care. We have successfully found forever homes for all of these wonderful cats. You will learn more about the topic a bit further in this issue.

Our Spay/Neuter Assistance Program (SNAP) had a banner

year! We spayed/neutered 615 pet felines onsite (mostly in the Shaftsbury building). We also worked with area veterinarians, who offer their canine spay/neuter clinics at reduced rates through our SNAP program, and 124 pet dogs were spayed/neutered through SNAP. This means that THOUSANDS of unwanted litters were avoided, and the pets in our community will live healthier lives.

Of course, by far, the largest project undertaken and completed in 2018 was the construction and opening of our new building in Arlington. The dream of an improved facility for the community began many years ago, and we took real steps in 2012 when a fundraising feasibility study was completed. We then purchased the site of the former Valhalla Motel in 2015, prepared the site for construction in 2016, broke ground and poured the foundation in 2017, and officially opened the doors on October 29, 2018. We have already seen the benefits of a state-of-the-art shelter, including: very few felines develop upper respiratory infections due to the fresh air exchanges; surgery days run much smoother and faster in a larger and well-planned space; the floors and walls glow after their daily cleaning; the canines are less stressed while enjoying the classical musical coming from the sound system; and the cats thrive in the larger rooms with plenty of enrichment opportunities and visitors.

Thank you to our many Capital Campaign donors and to our Capital Campaign Committee and Building Committee, especially Maria Timmerman, Jim Evans, Randy Schmidt, and Shona Ross, for their commitment to make the new facility a reality. As we enter into our 60th year of operation, we are fortunate to have this new building to provide services and programs to our community.

We always have so much work to do but it's with your generosity that we are able to accomplish our work. On behalf of the staff, thank you for your enthusiastic support.

Become a Forever Friend

Jim Evans, President

We are excited to announce a new program to recognize those Second Chance supporters who have included us in their estate plans. These individuals will become part of our Forever Friends program.

By including Second Chance in your trust or will, you will help guarantee that our Center will be helping the community members and companion animals of our service area for years to come. With the many programs we offer at waived or reduced cost, Second Chance must rely on donations, grants, and fundraising events to fund our operations. The only way we can absolutely know that we will be able to continue our mission long-term is to build our endowment to a level where we can use the endowment earnings to help fund our operations.

Here is an example of how a one-time gift from your estate plan can help Second Chance forever. If you designate a \$10,000 gift to the Center, the earnings on that gift will give us \$500 per year for decades to come; a \$25,000 gift will result in an annual disbursement of \$1,250.

As a member of Forever Friends, you will receive recognition (unless you prefer otherwise), special benefits, and be invited to an annual gathering of your fellow Friends. For those of you who have already included Second Chance in your estate plan, or intend to add us to your will in 2019, you will be a Charter Member of Forever Friends, and we will recognize those individuals in a prominent place in the new building.

Please notify Cathi Comar to let her know if you have already included, or intend to include, Second Chance in your estate plan, and you will become a member of Forever Friends. You do not need to disclose any information as to the level of contribution you have included in your planned giving. If you need assistance on how to add us to your estate plan, we are happy to provide that help...adding Second Chance to your will or estate plan is easy!

My wife Patti and I have had Second Chance in our wills for many years, and we look forward to being Charter Members of Forever Friends. Please join us!

Note: My term as President of the Board of Trustees ends on April 1. I have enjoyed my tenure as both Vice President and President and feel extremely lucky to have served during perhaps the most exciting time in Second Chance's history. I plan to continue serving as a Board member as I think this is a remarkable organization, with a tremendous staff, great volunteers, and a terrific Board. I am pleased that our current Board Vice President, Maria Timmerman, will step into the President position. Thank you for the support you have shown to me and to Second Chance.

NEW BEGINNINGS

A Penny For Your Love

Troy Quinn, Canine Coordinator

Here at Second Chance Animal Center, you can never quite predict exactly how each day is going to go, or what type of animal is going to come through the doors, looking for love and their forever home. This past May, we received a call from an Animal Control Officer about an extremely neglected hound mix who was living outdoors on a chain and was in the very late stage of pregnancy; this dog was being seized by the Vermont State Police and needed a safe and warm place to go. After setting up a quieter space on the end of the kennel, Animal Control brought a young Penny to the shelter to be assessed. She was emaciated and scared, but full of a desire to be loved and treated fairly.

After having her puppies we knew Penny would still have a long road ahead of her. Her emaciated condition continued to be a problem; though she had endless amounts of food available to her at all times, her nursing puppies depleted any nutrients she consumed. This was taking a physical toll on this young canine. But once the puppies were weaned and Penny was able to gain weight, we saw her true character unfold. Having only been outdoors her entire life, she quickly learned that a house had many interesting things to investigate. Penny was making up for lost time as she was never allowed to be a puppy who was raised in a loving yet structured environment. We also had concerns about her ability to be housebroken. We assigned Penny to our STAY! Program to make sure she received the attention and training she needed to begin her new life as a house pet.

With a good amount of effort from the kennel staff, our trainer, as well as her forever home that came to be, we found that she is one of the more social canines to come through Second Chance. One of her bigger challenges was finding a proper outlet for her pent-up energy that seemed to last for hours, but once she found her proper home, everything has fallen into place for this sweet girl. She is now living in a home with a large, fenced-in yard and has the companionship of another four-legged hound-mix family member. Her loving adopters are patiently teaching her how to be a proper house dog.

We could not be happier for how Penny's, now Maizy's, life has turned out considering her original circumstances; and we love receiving updates and photographs about how wonderful her life has become.

Penny Upon Arrival

Penny After Adoption

New Beginnings for Felines *Santana Snyder, Feline Associate*

Rose

There were many changes at Second Chance last year, and one of the smaller but life-altering ones was how we think about and work with cats that test positive for Feline Immunodeficiency Virus (FIV+). After attending an educational conference in April, our staff were introduced to entirely new policies and procedures some animal shelters are now using to manage surrendered FIV+ felines. Based on this new information, updated shelter-medicine and medical research, and conversations with other shelters about their experiences, we worked quickly to change the policies and animal-care procedures around FIV+ felines at our shelter. This change meant that we could now accept FIV+ cats into Second Chance.

Within days of making this decision, our first test case was in our care. A young mother cat and her four newborn kittens all tested FIV+ at intake.

Because our top priority is always prevention of disease through cross contamination, we changed our cleaning protocols. Additionally, we revised our medical treatment policies around treating infected felines. As part of preventative care, we give all FIV+ felines an immune support supplement twice a day to strengthen their immune systems and lessen the chance of their becoming ill. Finally, as with all of our

animals, these special kitties are closely monitored for signs of illness or infection. Cats who are FIV+ have a weakened immune system, and their lives can be threatened by some illnesses that a healthy cat can easily recover from. Although they are prone to more infections than an average feline, with a healthy diet, consistent veterinary care, and a low-stress home life, FIV+ felines live long, comfortable lives.

One common misconception about the virus is that felines who are FIV + cannot be around uninfected felines. This is false. As long as the FIV+ feline gets along with other felines, and vice versa, there should be no issues. FIV is transmitted in two ways: one way is through deep penetrating bites usually seen in aggressive behaviors; and the other, as with newborn kittens, is when the virus antibodies are introduced into their system while nursing from an infected mother. It is interesting to note that, though an adult cat who tests positive for FIV will remain so for the rest of their life, the majority of kittens will test negative after six months of age.

As for the mother and babies mentioned in this article, only one of the four kittens continued to test FIV+ after the six-month mark. Her name is Daffodil and, because of her lowered immune system, the stress of shelter life affected her harder than most and it took several months for her health status to stabilize. Happily she was adopted by one of the staff members here at Second Chance and is doing wonderfully in her new home. Like Daffodil, siblings Chirp, Lilac, and Bud have all been adopted and are living happy lives in their forever homes. Their mother, Rose, was also adopted by a loving family, but she later developed a serious kidney infection from which she could not recover, and she sadly passed. This small cat played a big role at Second Chance!

Our Popular Summer Camp Program Returns!

We are happy to announce the return of our youth summer camp program for 2019. This year *Camp Companion* will be led by Sarah Mayer, a Teaching Assistant from The Village School of North Bennington. We are working with Sarah to create fun activities for each of the sessions to make summer learning a breeze!

Use the registration form below to reserve your place. Space is limited so send your form and deposit to SCAC as soon as possible.

Full-Day Camps:

Ages: 8-12

Cost: \$225.00

Time: 9:00-3:00

Half-Day Camps:

Ages: 5-7

Cost: \$125.00

Time: 9:00-12:00

2019 Summer Sessions

Session 1: **June 24-28**

The Three Bs: Learn about the importance of bees, butterflies, and birds in our lives.

(Full day for ages 8-12)

Session 2: **July 8-12**

Feline Frenzy: A fun-filled week of cats - those who live in our home, in our community, and in the wild.

(Full day for ages 8-12)

Session 3: **July 15-19**

Dog Days of Summer: Explore the exciting world of dogs, from pugs to coyotes.

(Full day for ages 8-12)

Session 4: **July 22-26**

Cuddly Creatures: This is a great opportunity for youngsters to learn about rabbits, hamsters, ferrets, and other small pets.

(Half day for ages 5-7)

Adoption Sponsorship Program

This special program has helped us to find forever homes for so many deserving animals!

The adoption fees of the following four-legged residents are generously sponsored by someone else, so you are only required to provide a healthy and happy adoptive home. If any of these cats or dog might be of interest to you, please call the shelter, or, better yet, visit the Center very soon.

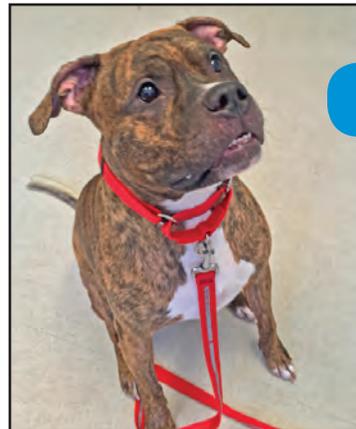

Contact us if you would like to sponsor an animal's adoption!

Subaru: The Unofficial Car of Vermont and Second Chance Animal Center

Win a new Subaru and support Second Chance!

We have a great opportunity for YOU! We are partnering with **Bennington Subaru** and **The Autosaver Group** to raffle off a **2019 Crosstrek 2.0i Premium** this fall. Beginning May 1, you can purchase a single raffle ticket for \$40 or 3 raffle tickets for \$100. Tickets will be available at Second Chance and at select community venues. The winning ticket will be selected on October 12 at Bennington Subaru. Call us for more details.

The Benefits of Reiki

Cathleen Perrone, Community Programs Coordinator

At Second Chance, we are always looking for new volunteers as well as new volunteer opportunities that benefit and enrich the lives of our shelter animals. A couple of years ago we were approached by a woman named Cindy who inquired about volunteering her time to perform Reiki on our cats and dogs. We were unfamiliar with the benefits of Reiki, so Cindy, a Master Reiki Teacher, took the time to explain what this healing art is all about.

Reiki is an energy-based therapy that can be performed on any living being. This therapy uses Japanese techniques to channel positive energy from the Reiki practitioner to the recipient, mostly without direct touch. Energy is thought to be released through the presence of the practitioner to promote and encourage emotional and physical healing to the receiver. Other benefits of this therapy include release of energy and relaxation. Dr. Mikao Usai is credited as the founder of Reiki, opening a Tokyo clinic in 1922. This healing technique was brought to the United States several years later by a Japanese-American Reiki Master.

When an animal arrives at any shelter, it is usually stressed and “out of balance.” This can happen for a variety of reasons: loss of their home or person; fear; lack of trust; or trouble adapting to a new location. When Cindy visits the shelter, she slowly and deliberately walks through the animal-care rooms to assess the energy by individual animals. Cindy tends to focus her time with the animals showing the most stress for as long as they seem willing. Most of the time she will use the palm healing (or hands off) technique, but she has seen positive results with some hands-on techniques.

We have seen the benefits of Reiki at Second Chance. A 14-year-old feline, Gussy, arrived at the shelter when her loving owner passed away. As you can imagine, it was a tough transition for Gussy; she hissed at everyone and did not allow people, including staff members, to pet her. We didn't

know how to get Gussy to settle. This is where Cindy helped. She spent several weeks working with Gussy, then suddenly one morning Gussy jumped onto laps, purred, and enjoyed human company. After we saw the change in Gussy, we then began to ask Cindy to work with specific animals who also had difficulty transitioning.

Shelters strive to do their best to make the environment as comfortable as possible, but sometimes there are certain animals that need a little extra help. At Second Chance we are truly fortunate to have Cindy in our “tool box” of animal enrichment!

In Memoriam

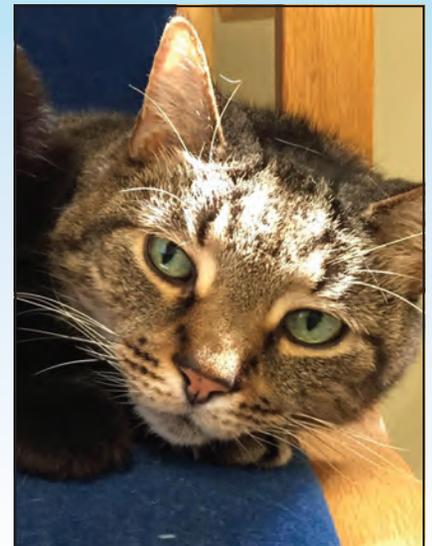

We are sad to report the passing of our favorite shelter tabby, Tomas. He came to the shelter at the age of six and was adopted by our former Shelter Manager, Sharon Burnett. Shortly after getting Tomas home, it became very clear that he did not get along with other male cats, so he lived in Sharon's office for a few years. Shona Ross became his person upon Sharon's departure for Montana, and he moved with us to the Arlington facility in 2018.

This perceptive feline was a quiet presence during job interviews in Shona's office. If Tomas approached the applicant for some attention, that usually meant that “the job is yours” ... he only gravitated to those who loved animals.

Tomas enjoyed the company of female cats and had many office companions throughout the years. He was a great ambassador and helped many shy felines to more easily transition to living in the shelter. Midge, his most recent gal pal, has been his close companion for over a year.

We will miss Tomas.

Our Amazing Supporters

Second Chance gratefully acknowledges the outstanding support of our many contributors—those who make financial contributions, donate in-kind services and materials, and those who donate their time. We can only accomplish our goals with this tremendous support. The following pages list contributors from **January 1 through December 31, 2018**. *Please accept our apology if any names have been misspelled or inadvertently excluded, and please contact our office if your records do not match ours.*

Memorial Benches Available

We now have another 6 memorial benches available for sponsorship. These will be placed around our Arlington property to be used by visitors, volunteers, and staff members who are enjoying our beautiful grounds.

What a unique way to memorialize a loved one, celebrate a special occasion, or honor someone important in your life!

The tax-deductible, sponsorship fee is \$3,000. For details please contact our office manager at 802-375-2898 ext.303 or email kernst@2ndchanceanimalcenter.org.

Second Chance Animal Center
